July 6, 2016

Dear Property Owner,

As you may know, the City of New Richmond has been working with the Wisconsin Department of Transportation (DOT) on revising the future plans for the intersection of STH 64 with N 4th Street and Wall Street. The City's purpose in revising these plans has been to meet DOT requirements for safety as traffic volumes increase in the STH 64 corridor, while maintaining intuitive access for existing and future businesses/residents in this corridor area.

We have developed a draft plan, with multiple options, and would like to get public feedback on the options before we bring it before the City Council for official consideration. The City will be hosting an open house on July 13th from 4:00-6:00 at the Civic Center, 156 E 1st Street to present the options and solicit this feedback.

As a property owner in this corridor area, I wanted to personally extend an invitation to this open house as your feedback will be very valuable. If you can't make the open house, but would still like more information or have questions, please feel free to contact me at 715-246-4268 or jwendt@newrichmondwi.gov.

Regards,

Jeremiah J. Wendt, PE
Director of Public Works
