

# YOUR ENERGY-SAVING CHECKLIST AT HOME

## Lighting

- Install energy-efficient light bulbs throughout your home
- Use motion-detector lights for all outdoor lighting
- Explore connected lighting products

## Cooling

- Install a smart thermostat to automatically control temperature settings throughout the day
- Insulate your walls and attic to keep hot air outside
- Make sure your AC has a Seasonal Energy Efficiency Rating (SEER) of at least 16

## Heating

- Change furnace filters seasonally for optimum efficiency
- Get an energy-efficient furnace, heat pump or boiler
- Let the sun help heat your home; leave shades open during the day

## Appliances

- Keep the freezer full; it uses less energy than when empty
- Recycle an old, working fridge or freezer
- Look for the ENERGY STAR® label when shopping for new appliances

## Water

- Always wash laundry with cold water
- Reduce your water heater temperature to 120 degrees
- Install faucet aerators and water-saving showerheads

### REDUCING ENERGY WASTE ACROSS WISCONSIN

Focus on Energy, Wisconsin utilities' statewide program for energy efficiency and renewable energy, helps eligible residents and businesses save energy and money while protecting the environment. Focus on Energy information, resources and financial incentives help to implement energy efficiency and renewable energy projects that otherwise would not be completed.
